Evaluation Results for 2022–2024

All target suppliers successfully passed the evaluation. No major occupational safety incidents or violations of laws and regulations related to environmental protection or social responsibility were identified among suppliers.

Note:

During the evaluation period, if any cooperating supplier is found to have committed a material violation, the Company will immediately require corrective actions. In the event of severe circumstances, the Company reserves the right to terminate the cooperation relationship in accordance with the seriousness of the case.

Scope of Evaluation Includes

Supplier product quality, pricing, delivery performance, ESG sustainability performance, environmental protection, occupational safety, business ethics, human rights-related issues (including child labor, forced labor, freedom of association, discrimination, harassment, etc.), and labor rights and benefits.

Supplier Compliance Requirements

Shinkong Synthetic Fibers Corporation requires all suppliers to comply with the Shinkong Supplier Code of Conduct. In addition to complying with applicable local laws and regulations (including minimum wage requirements and restrictions on overtime), suppliers are also required to adhere to social responsibility standards covering human rights, labor rights, occupational safety, environmental protection, and business ethics.
